

A report on *Heritage on Wheels*
The Masons Ink Travelling Heritage Exhibition

Sankey Tank , Malleshwaram | Fort High School, Chamrajpet | Bandstand, Cubbon Park

Who we are ...

Mason's Ink Studio is an architectural, design and construction firm specializing in sustainable architecture and heritage conservation. An important part of our mission is to increase awareness in the field of heritage conservation and eco-friendly architecture. As part of this mission, we started an initiative called the Hands-on Heritage initiative to spread awareness and revive the interest of the public towards the tangible and intangible heritage in the country.

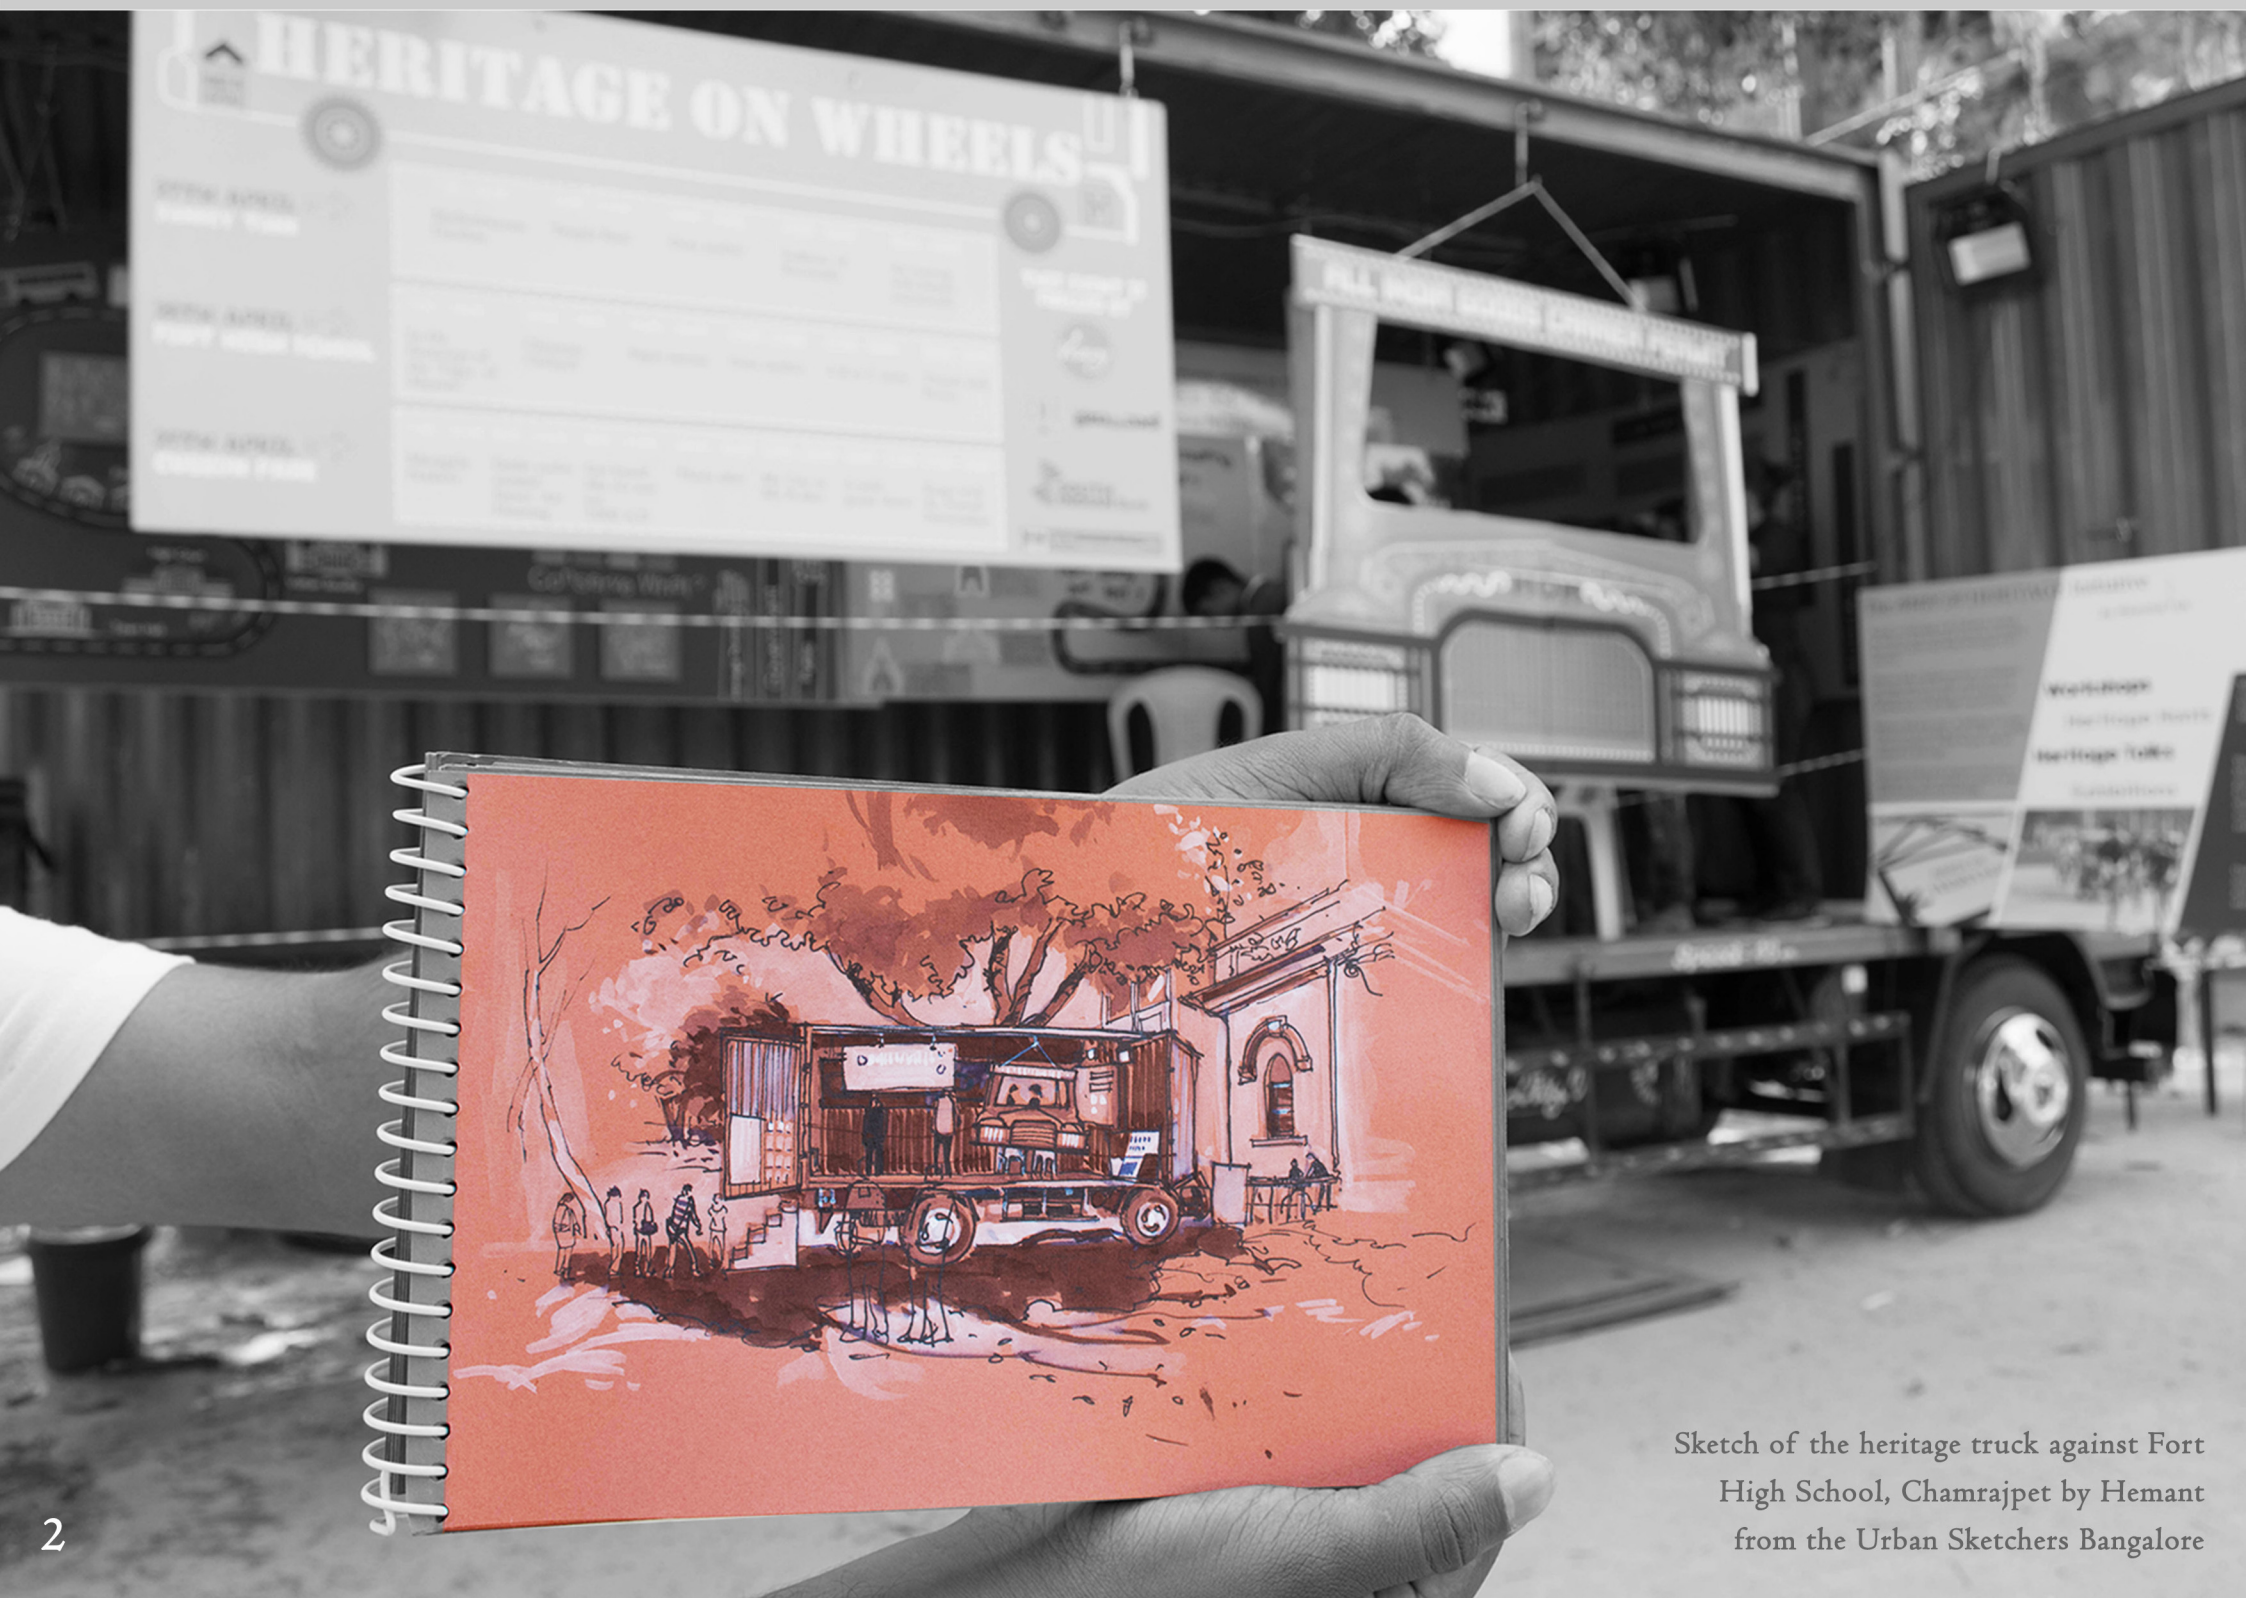

What is the Hands On Heritage initiative?

Under this initiative, Mason's Ink conducts various workshops, heritage hunts, heritage walks, heritage exhibitions and other awareness programs for the general public. Through our past events we have collaborated with a number of organizations such as INTACH, Sahapedia and GoUnesco. The initiative is 4 years old and has received wide acclaim for being a catalyst for change.

Heritage on Wheels!

Following the success of our past events and to commemorate World Heritage Day, we hosted a travelling exhibition that brings Heritage to your doorstep, celebrating the history of Namma Bengaluru. From April 27th to 29th, the heritage truck laced through the city covering the North; along the tree lined streets of Malleshwaram; South, near the bustling Pete area and Central, under the lush foliage of Cubbon Park! We received a total footfalls of over a thousand people for the events and the exhibition over three days.

about us...

Sketch of the heritage truck against Fort High School, Chamrajpet by Hemant from the Urban Sketchers Bangalore

We had a total of 18 events planned during the three days of the exhibition. They included Heritage walks, food walks, story telling sessions, movie screenings, theatre and illustration workshops, traditional board games and Heritage hunts curated by Masons Ink.
